### PERSONAL PROFILE

*"To be successful, the first thing to do is fall in love with your work"* (Sister Mary Laurretta)

Believing in the above quote I have decided to change my career from being an Accountant to become a successful Web Developer. Web programming and learning new technologies has become my passion and I continue to develop my skills every day. Experienced in contact with clients and providing excellent quality work on time. Strong organisational and IT skills allowed me to work out solutions to complete most of the jobs within 80% of the budgeted time.

### SKILLS & TECHNOLOGIES

- Excellent interpersonal skills and the ability to communicate effectively at any level.
- The ability to work efficiently under pressure and to tight deadlines.
- Reliable, responsible and able to work under minimum supervision.

### RELEVANT EXPERIENCE

#### Freelance Front-End Developer - (October 2017 – present)

##### Local Church Community website ([www.jezuszyje.co.uk](http://www.jezuszyje.co.uk))

- Working alongside two other developers to create functional, accessible website for community counting around 150 people. The site will include automatically updating google calendar, gallery fetching photos from Facebook profile, YouTube videos and study materials for participants.
- My responsibilities: design UI/UX, code presentational components, website maintenance and updates.
- Website build with React, hosted on Firebase with Node.js back-end.

#### Work in progress projects:

##### Matt Wielunski Personal Trainer and Ruah Photography websites

- Websites will be built with react, static site generator Gatsby to overcome SEO problems and will be connected to Word Press API as clients plan to update content occasionally.

## PROFESSIONAL EXPERIENCE

---

**John M Taylor & Co (January 2016 – present)**

**Accounts Assistant**

- Prepared full set of financial statements for wide range of clients. Effectively communicated with other departments and with clients to gather all necessary information required to complete the job.
- Bringing adjustments as instructed by directors.
- Utilised Microsoft Excel tools to reduce time spend on manual analysis. Usually a main point of contact in the company in case of Excel problems.
- Although busy with own work always found time to help other departments if needed.
- Quickly learned and easily adapted to recent changes in Generally Accepted Accounting Principles in UK.
- Continuously improved accounting knowledge by attending structured training in the company but also studied at home for professional exams.

**DA Accountants (November 2014 – April 2015) & French Duncan LLP (April 2015 – January 2016)**

**Accounts Assistant**

- Responsible for full life cycle of accounts preparation – from requesting the records from clients up to handing in final draft to the manager.
- During the period of changes in the company used and quickly learned few different accounting software packages what prevented big delays in delivery of the service to the clients.
- Managed workload, prioritised jobs to make sure they are completed on time.
- Reported to manager, followed his instructions on accounts adjustments needed.
